Mohammed Farhaan Ahmed

farhaanzaki@gmail.com | 07424743260

Data Scientist with 3+ years of experience building ML and LLM-driven systems on AWS for financial services. Proven track record in developing conversational analytics, automated testing tools, and predictive models. Skilled in Python, NLP, LLMs, and statistical modeling, with a focus on delivering scalable AI solutions for financial data.

Experience

Data Scientist – BMW Financial Services 04/2024 – present

- Developed an automated testing tool using AWS, reducing release time for new financial products by 70%.
- Built an end-to-end traditional ML model to predict customer renewability, enabling targeted retention strategies.
- Created a data masking tool with AWS and open-source services to obfuscate sensitive customer data for AI model compliance.
- Developed a fully functional LLM that summarizes customer feedback, assigns sentiment, and categorizes comments into predefined KPI topics, enhancing conversational analytics.

Graduate Data Scientist – BMW Group US/UK/AG 2022 – 2024

- Designed an AI detection model to compare paper contracts against system values, reducing manual comparison time from 15 minutes per contract to seconds for hundreds.
- Automated monthly performance reports for HQ, saving 10 hours per month and enabling real-time data-driven decisions.
- Developed an end-to-end business product to analyze customer renewability rates, applying statistical modeling and feature engineering.
- Built an elasticity model for optimal car pricing using quantitative analysis, maximizing revenue.
- Planned and conducted a three-day workshop on retail strategy for employees across Europe, demonstrating leadership and cross-functional collaboration.

Python Developer – INI Labs inc 2021 – 2022

- Built HTML webpages from complex PDF, DOC, and TXT files using REGEX and Python, enabling structured data extraction.
- Developed RESTful APIs with Flask to serve webpages, supporting integration with downstream systems.
- Collaborated with team members on code optimization and reviews, ensuring high-quality deliverables.

Education

MSc. in Data Analysis for Business Intelligence, University of Leicester (2019 – 2020)

Skills

Python, Machine Learning, NLP, LLMs, Statistical Modeling, AWS: Athena, EC2, S3, SageMaker, Comprehend, Bedrock, Textract, SQL: Athena, Oracle, PostgreSQL, GitHub, Pandas, NumPy, Scikit-learn, Tableau, FAISS Vector DB, RAG systems, Agentic Workflows, Deep Learning
