Mohammed Farhaan Ahmed

farhaanzaki@gmail.com | 07424743260

Data Scientist with 3+ years of experience in financial services and alternative data analysis, skilled in Python, SQL, and AI/ML. Proven track record of building scalable data pipelines, predictive models, and AI tools to drive investment insights. Strong communicator with experience partnering with front-office teams to identify data opportunities and deliver actionable results.

Experience

Data Scientist – BMW Financial Services 04/2024 – present

- Developed an automated testing tool saving 70% of time during product releases into AWS warehouse, improving data onboarding efficiency.
- Built end-to-end traditional AI model for predicting customer renewability, directly supporting financial services decision-making.
- Created a masking tool using AWS and open-source services to obfuscate sensitive customer data before AI processing, ensuring compliance.
- Developed a fully functioning LLM that summarizes customer feedback, assigns sentiment, and categorizes into KPI topics, enabling rapid insight generation.

Graduate Data Scientist – BMW Group US/UK/AG 2022 – 2024

- Created an AI detection model comparing paper contracts against system values, reducing manual comparison time from 15 minutes to seconds.
- Automated monthly performance reports sent to HQ, saving 10 hours per month and enabling faster data-driven decisions.
- Developed an end-to-end business product for understanding customer renewability rate, directly impacting revenue forecasting.
- Built an elasticity model to optimize car pricing, achieving highest optimization for revenue maximization.
- Planned and conducted a three-day workshop on new retail strategy for employees across Europe, demonstrating stakeholder engagement.

Python Developer – INI Labs inc 2021 – 2022

- Built HTML webpages from complex PDF, DOC, and TXT files using REGEX and Python, enabling structured data extraction.
- Developed RESTful APIs using Flask web framework to link and serve webpages, supporting scalable data access.
- Collaborated with team members on code optimization and code reviews, ensuring high-quality deliverables.

Education

MSc. in Data Analysis for Business Intelligence, University of Leicester (2019 – 2020)

Skills

Python, SQL (Athena, Oracle, PostgreSQL), AWS (S3, EC2, SageMaker, Bedrock, Comprehend, Textract), Machine Learning (Scikit-learn, Deep Learning), LLMs, RAG systems, Agentic Workflows, Time-series analysis, Statistical analysis, Data wrangling, Tableau, GitHub, Snowflake (familiar), Web-scraping (familiar)
